

REAL WORLD TESTING PLAN TEMPLATE

GENERAL INFORMATION

Developer Name: InPracSys

Product Name(s): InPracSys EHR

Version Number(s): 9.0

Product List (CHPL) ID(s): 15.05.05.2762.INPS.01.00.1.191206

Developer Real World Testing Page URL: <https://www.inpracsys.com/rwt/>

Real World Testing Period: 2022

Changes: There have been no Changes to the Original Plan

Standard Updates: As far as we are aware, there were no standard updates in the criteria that are applicable to InPracSys EHR version 9.0.

REAL WORLD TESTING RESULTS 2022

SUMMARY OF TEST METHODS AND FINDINGS

Real world scenarios identified by the providers and staff were sample tested against our internal benchmarks. The method used were as follows: Provider and staff entered/edited data in the applicable sections in the EHR frontend interface, and our staff verified entries and edits in the backend database. All tests were passed with no exceptions. The system was found complainant with applicable certification criteria.

Care Setting	Justification	
Ambulatory Medical Clinic	Ambulatory Medical Clinic (Urology Clinics) Note: Our application is specific to the practice of Urology	
Measurement/Metric	Expected Outcomes	Test Results 2022
Transitions of Care as CCDA – Create DDDD	That CCDA messages were successfully created with no errors	Completed 12/30/2022 Passed with no errors and compliant with certification criteria
Transitions of Care CCDA – Conformance	That CCDA messages created conform to B(1) requirements	Completed 12/30/2022 Passed with no errors and compliant with certification criteria
Transitions of Care CCDA Receive	That the CCDA messages were successfully received, reconciled and data incorporated with no errors	Completed 12/30/2022 Passed with no errors and compliant with certification criteria
Transitions of Care CCDA Display	That the CCDA messages were successfully received and displayed	Completed 12/30/2022 Passed with no errors and compliant with certification criteria

Transitions of Care CCDA Display section order	That the CCDA messages were successfully received, order of sections displayed with no errors	Completed 1/6/2023 Passed with no errors and compliant with certification criteria
Clinical information reconciliation and incorporation	That the CCDA messages were successfully reconciled, and data incorporated with no errors.	Completed 1/6/2023 Passed with no errors and compliant with certification criteria
Electronic prescribing	The prescriptions in the measure were successfully transmitted and acknowledged by the recipient service provider.	Completed 1/6/2023 Passed with no errors and compliant with certification criteria
Data export	That summaries were successfully exported and transmitted without errors, and final destination recorded.	Completed 1/6/2023 Passed with no errors and compliant with certification criteria
Clinical quality measures (CQMs) — record and export	Data was successfully exported and error free.	Completed 1/6/2023 Passed with no errors and compliant with certification criteria
VDT - View	Data was successfully viewed and error free	Completed 1/6/2023 Passed with no errors and compliant with certification criteria
VDT - Download and Transmit	Data was successfully downloaded or transmitted and error free	Completed 1/6/2023 Passed with no errors and compliant with certification criteria
VDT - Activity Logging	Data viewed, successfully downloaded or transmitted, contains user and timestamp	Completed 1/6/2023 Passed with no errors and compliant with certification criteria
Creation of syndromic surveillance messages	Messages were successful created to HL7 2.5.1 standard and there were no errors	Completed 1/6/2023 Passed with no errors and compliant with certification criteria
Transmission to public health agencies	Messages were successfully transmitted without errors	Completed 1/6/2023 Passed with no errors and compliant with certification criteria
Application access — patient selection Success	Greater than 99% of the requests made per Health IT's documentation, resulted in successful issue of a token	Completed 1/6/2023 Passed with no errors and compliant with certification criteria
Application access — patient selection failed	Greater than 99% of the requests made per Health IT's documentation, resulted in successful issue of a token	Completed 1/6/2023 Passed with no errors and compliant with certification criteria
Application access — data category request	Greater than 99% of the requests made per Health IT's documentation, resulted in successful issue of a token and exchange of data for the requested parameters.	Completed 1/6/2023 Passed with no errors and compliant with certification criteria
Application access — all data request	Greater than 99% of the requests made per Health IT's documentation, resulted in successful issue of a token and exchange of data for the requested parameters.	Completed 1/6/2023 Passed with no errors and compliant with certification criteria

Health IT Certification Program

The Office of the National Coordinator for Health Information Technology

Direct Project – Stored addresses	Greater than one each of address and domain bound Direct addresses are stored without errors	Completed 12/30/2022 Passed with no errors and compliant with certification criteria
Direct Project – Wrapped message success	Messages are successfully sent to third parties	Completed 12/30/2022 Passed with no errors and compliant with certification criteria

Measurement/Metric	Associated Certification Criteria	Relied Upon	Challenges
Transitions of Care as CCDA – Create	170.315(b)(1) Transitions of Care	None	None
Transitions of Care CCDA - Conformance	170.315(b)(1) Transitions of Care	EMR Direct	None
Transitions of Care CCDA Receive	170.315(b)(1) Transitions of Care	EMR Direct	None
Transitions of Care CCDA Display	170.315(b)(1) Transitions of Care	None	None
Transitions of Care CCDA Display section order	170.315(b)(1) Transitions of Care	None	None
Clinical information reconciliation and incorporation	170.315 (b)(2) Clinical information reconciliation and incorporation	EMR Direct	None
Electronic prescribing	170.315 (b)(3) Electronic prescribing	Dosespot	None
Data export	170.315 (b)(6) Data export	EMR Direct	None
Clinical quality measures (CQMs) — record and export	<i>170.315(c)(1) Clinical quality measures (CQMs) — record and export</i>	None	None
VDT- View	<i>170.315(e)(1) View, download, and transmit to 3rd party</i>	None	None
download and transmit	<i>170.315(e)(1) View, download, and transmit to 3rd party</i>	None	None
Activity Logging	<i>170.315(e)(1) View, download, and transmit to 3rd party</i>	None	None
Creation of syndromic surveillance to required standard	<i>170.315(f)(2) Transmission to public health agencies — syndromic surveillance</i>	None	None
Transmission to public health agencies — electronic case reporting	<i>170.315(f)(5) Transmission to public health agencies — electronic case reporting</i>	None	None
Application access — patient selection Success	<i>170.315(g)(7) Application access — patient selection</i>	None	None
Application access — patient selection failed	<i>170.315(g)(7) Application access — patient selection</i>	None	None

Application access — data category request	<i>170.315(g)(8) Application access — data category request</i>	None	None
Application access — all data request	<i>170.315(g)(9) Application access — all data request</i>	None	None
Direct Project – Stored addresses	<i>170.315(h)(1) Direct Project</i>	EMR Direct	None
Direct Project – Wrapped message success	<i>170.315(h)(1) Direct Project</i>	EMR Direct	None

Key Milestone	Care Setting	Date/Timeframe
Completed RWT Development	Ambulatory Medical Clinic	Nov 30 2021
RWT Data collection period	Ambulatory Medical Clinic	2022
Completed RWT	Ambulatory Medical Clinic	12/30/2022
Reported Results to SLI	Ambulatory Medical Clinic	Jan 16 2023

ATTESTATION

This Real World Testing plan is complete with all required elements, including measures that address all certification criteria and care settings. All information in this plan is up to date and fully addresses the health IT developer’s Real World Testing requirements.
